## WHAT IS LIPOTROFIN CAPSULES?

- It is a complement in slimming diets and anti-cellulite treatments.

## PRESENTATION

- Box containing 30 capsules.

## COMPOSITION

- *Betula alba*, *Equisetum arvense*, *Ruscus aculeatus*, *Thea sinensis*, *Rutina*, *Phyllostachys sp.*
- Excipients: Microcrystalline cellulose, Magnesium stearate.

## WHICH ARE ITS ACTIVE PRINCIPLES?

### FLAVONOIDS

- They are components of phenolic structure. Last evidences show its effects: anti-oxidants, P vitamin protectors, draining.
- They can be found in the following plants: *Betula alba*, *Equisetum arvense*, *Ruscus aculeatus*, *Thea sinensis*, etc.

### RUTOSIDE

- Chemically is a quercetol. It presents an important P vitamin action.
- It is presented in the floral buttons of *Ruscus aculeatus*.

### TEOFILINE

- Its chemical structure comes from a xanthan base. The xanthan bases present lipolytic (reducer) and draining effects. They are commonly used as complements in slimming diets.
- Characteristics from: *Thea sinensis*, *Coffea sp*, *Theobroma cacao* and *Ilex paraguensis*.

### SILICIUM SALTS

- The silicium salts provide a draining and restructuring action of collagen, elastin and conjunctive tissue. It is the best solution against "orange peel".
- They are presented in the following species: *Equisetum arvense* and *Phyllostachys sp.*

## WHICH ARE ITS EFFECTS?

- Anti-cellulite.
- Draining.
- Restructuring.
- P vitamin action.
- Improves texture and "orange peel".

## DOSAGE OF LIPOTROFIN CAPSULES

- Take one capsule for breakfast, one for lunch or two capsules for midday meal.
- Keep in cool and dry place.

# EXTERNAL TREATMENT

## WHAT IS LIPOTROFIN CREAM?

- It is an anti-cellulite cream, reducer and firming with remodel effect. **Lipotrofin Cream** improves the skin texture, increases elasticity and reduces volume and "orange peel".

## PRESENTATION

- 200 ml e / 7 Fl. oz.

## COMPOSITION

- Water (Aqua), Methylsilanol Carboxymethyl Theophylline Alginate, Hamamelis Virginiana (Witch Hazel) Water, Diethylhexyl Adipate, Lactic Acid, Caprylic/Capric Triglyceride, Dimethyl Mea, Menthyl Lactate, Cetyl Alcohol, PEG-20 Methyl Glucose Sesquistearate, Dicaprylyl Ether, Methyl Glucose Sesquisterate, Acrylamide/Sodium Acrylate Copolymer and Mineral Oil and Trideceth-6, Butcherbroom (*Ruscus Aculeatus*) Extract, Ivy (*Hedera Helix*) Extract, Horse Chestnut (*Aesculus Hippocastamum*) Extract, Hydrogenated Polyisobutene, Glyceryl Stearate, Dimethicone, Potassium Cetyl Phosphate, Phenoxyethanol and Methylparaben and Ethylparaben and Propylparaben and Butylparaben, Tocopheryl Acetate, Fragrance (Parfum), Disodium-Edta.

## WHICH ARE ITS ACTIVE PRINCIPLES?

### FLAVONOIDS

- They have an important anti-oxidant action, protector-vitamin P and draining.
- They can be found in plant such as *Aesculus hippocastanum*, *Hamamelis virginiana* and *Hedera helix*.

### RUTOSIDE

- It presents an important P vitamin action. It is presented in the floral buttons of *Ruscus aculeatus* and *Hedera helix*.

### METHYLSILANOL CARBOXYMETHYL THEOPHYLLINE ALGINATE

- The Teofiline performs a lipolytic –reducer action seven times greater than caffeine.
- The Silicium has a draining and re-structuring effect from collagen, elastine and conjunctive tissue favouring the regeneration of the "orange peel".

### D.M.A.E.

- It performs a reaffirming and tensor effect and increases the muscle tone.

### VITAMIN E

- It has an important anti-oxidant action, anti-free radicals (responsible for ageing) and improves the skin smoothness.
- As a final result **Lipotrofin cream** is a **triple action** product: **Anti-cellulite, reducer and reaffirming.**

## WAY OF USE

- Apply the product over clean and dry skin, with gentle and circular movements until its complete absorption, insisting on the most affected areas. In the beginning of the treatment apply the cream in the morning and at night.

## RECCOMENDATIONS IN ORDER TO FIGHT CELLULITE

- Keep a healthy and balanced diet
- Drink at least two litres of water every day
- Practise exercise or walk
- Avoid tight clothes and too high heels.
